

Risk Management | Instinctive & Evasive Driving Refresher (IEDR)

G4S Risk Management's specialist training division offers an Instinctive & Evasive Driving Refresher course for drivers who need to regain skills that have may have diminished over a lapse of time, or for those who wish to refine their skills.

Overview

Our one day Instinctive & Evasive Driving Refresher (IEDR) training course is dedicated to professional drivers who need to return to their previously taught skill sets and driving techniques. The course is open to delegates who have successfully completed a G4S accredited SDID or ECPD course where consideration is also given to a reasonable time lapse that may have exceeded 18 months or more.

This intensive driving course ensures the driver maintains the professional validation of Skills for Security and the National Occupational Standard (NOS).

Our staff & facilities

The course is conducted by our team of highly experienced instructors who are former UK Special Forces and police personnel with recognised civilian teaching qualifications and recent operational experience. Their proven capabilities and our facilities ensure we deliver a learning experience that enables clients to drive confidently and securely within a range of environments.

The Instinctive & Evasive Driving course is conducted at our training facility at Pershore, Worcestershire. The site is a former MOD base with a 2.5 mile driving track, innovative hostile environment street scene and vehicle crash area.
